Dear Mr. Newby,

Attached is a letter on behalf of NOAA seeking concurrence that the restoration project identified in the attached DBL 152 Draft Restoration Plan is consistent to the maximum extent practicable with the enforceable policies of the Texas Coastal Management Program.

If you have any questions, please let me know.

Many thanks,

--

Dear Mr. Newby,

Given the passage of 60 days, pursuant to 15 C.F.R. 930.41, NOAA presumes TGLO's concurrence with the federal consistency determination contained in this submission. We hope to have the Final Restoration Plan released to the public within the next month and to have project implementation beginning within six months after that. If you have any questions, please let me know. And, many thanks for your assistance with this.

Best regards,
Chris Plaisted
